Course Guide

Phonics Focus

Structured sets of phonemes and graphemes are an integral feature of the course and will be applied through a variety of methods of learning; including blending, segmenting, word families and rhyming. It is essential that phonics is practised and reinforced throughout the entirety of the course.

High Frequency Words

An awareness of the most commonly used High Frequency Words will be incorporated throughout the course. Recognition of these words will enable learners to become faster and more fluent readers.

Handwriting Practice

Learners are supported through the basics of letter formation and penmanship. The course aims to develop fine motor skills and provide learners with the ability to write independently and with confidence.

Sentence Structure

Syntax is reinforced through repetition and progressively challenging activities that provide learners with the tools needed to create their own sentences while continuing their language learning.

Reading Comprehension

Relatable reading tasks and comprehension activities have been designed to challenge learners and enhance listening, speaking and writing skills. Through reading comprehension learners will build on their vocabulary, practise pronunciation and develop grammar knowledge.
